EDUCATION

- Government College of Engineering, Salem** | *B.E. in CSE* Oct 2020 – 2024 | Salem, TN, India
CGPA: 8.81 (Till 6th Semester)
- Sakthi Matric Hr. Sec. School** | *Class 12th* Apr 2019 – Apr 2020 | Tamil Nadu, India
83 Percentage
- Sakthi Matric Hr. Sec. School** | *Class 10th* Apr 2017 – Apr 2018 | Tamil Nadu, India
91 Percentage

CODING & DESIGNING

Web Development | Visual Studio Code

- Developed and practiced Some Front-End Projects. 
- Aspiring to expand my skill set by delving into backend development

Competitive Programming | [GeekforGeeks](#) & [LeetCode](#)

- Enjoys solving Competitive Programming problems.
- Tackled around 400+ problems and committed to continuous learning new Algorithms.

PROJECTS

A Issue Tracker- Compliant Management System | [GitHub Repository](#)

Application demo  | Apr 2023 – Jun 2023

Essential Skills: HTML5, CSS3, Flask,

Worked with Team to create application, where the user can

- A platform for effectively register complaints online, tracking and resolving.
- Practiced Agile development methodologies to iterate and refine features based on project mentor feedback, resulting in a responsive and user-centric solution.

Course Recommendation System | [GitHub Repository](#)

Jun 2023

Essential Skills: Streamlit, Data Cleaning, Machine Learning Methods

This innovative system was designed to provide learner

- Personalized course suggestions to users within an online learning-platforms.
- Aiming to optimize their learning journey and overall experience.

To Do List App | [GitHub Repository](#)

Aug 2023

Essential Skills: HTML, CSS, JavaScript, ReactJS

This React App was designed to Provide the user

- To help users manage and organize tasks, and goals. A digital platform for creating, completing tasks, and deleting Completed Tasks.
- To provides way to share and explore content on various topics. Users can create new blog posts, read existing ones.

To make it as a Dynamic App, I am working on Integration it with Firebase. React App was Developed with JSON fake Server.

SKILLS

Programming Languages:	JAVA, Python, C, C++, HTML 5, JavaScript, CSS 3
Libraries / Platforms:	Pandas, NumPy, Windows
Frameworks:	React JS, Node JS, Express JS, Flask
Tools / Server / DBMS:	GitHub, JSON, MySQL
Course works:	Data Structure, Algorithms, Web Development, OOPS, Machine Learning
Non-Technical Skills:	Problem Solving, Critical & Analytical Thinking, Strong Communication, Leadership
Interests:	Competitive Programming, Full Stack Development, AL/ML enthusiastic

ACHIEVEMENTS

- Won **Power Programmer 2k23** Organized by GCEB, Krishnagiri and rewarded with cash 
- **Top Ranker** at GeeksForGeeks Institute Ranks 
- Secured **Silver Medal** in Programming in JAVA course by IIT, Kharagpur

CERTIFICATES

Programming in JAVA | NPTEL

Fundamentals of Machine Learning | Infosys SpringBoard
